Vendor Display Management

Vendor Display Management

- The Vendor Display Management tool controls which Cruise Lines are displayed as searchable options on all TPC&T Cruise Search pages
- To display a Cruise Line on the Cruise Search page ensure that the check box for that cruise line is "checked" then click on the "**Update Vendors**" button
- To not display a Cruise Line on the Cruise Search page ensure that the check box for that cruise line is "unchecked" then click on the "**Update Vendors**" button

Vendor Preference Management

endor Pr	eference Manage	ement	
	Vendor pre	ference levels mus	<u>Administration Menu</u> t be defined before vendor assignments can be made.
endor Pi	eference Level M	lanagement	
			PLEASE NOTE:
Level #	Description	Color (Hex Code with #)	Levels have ascending precedence with the exception of the None (0) level.
0	None	#FFFFFF	Levels have no effect on search results. That is handled by the Vendor Prior
		#FFFFFF	Management administration interface.
			Any new level without a description or level number will not be saved.
	Update Levels	Add Level	Only unassigned levels can be deleted.

Vendor Preference Management with No Preferences defined

• When preferences are defined yet the message "Vendor preference levels must be defined before vendor assignments can be made." will be displayed.

endor Pr	eference Level M	anagement					
Level #	Description	Color (Hex Code with #)	PLEASE NOTE: Levels have ascending precedence with the exception of the None (0) leve				
0	None High	#FFFFFF #25FF0D	Levels have no effect on search results. That is handled by the Vendo Management administration interface.				
C	Update Levels	Add Le	lescription or level number will not be saved.				

Defining a Vendor Preference Level

- To define a Vendor Preference Level enter a "Level #", a "Description" and select a color for the preference using the Hex Code selection box, then click the "Update Levels" button
- To create multiple Vendor Preference Levels click on the "Add Level" button and use the same steps as above

Vendor Priority Management

- The Vendor Priority Management tool determines the order in which results are displayed on the Cruise Search Results page
- To assign Vendor Priority levels use the drop down associated with the desired Cruise Line and select the desired priority level
- Cruise Lines will display in order based on their Priority Level with higher priorities displayed first (e.g. 9 will display before 8)
